

Community Bursary Case Study

Marie Curie Cancer Care

- Organisation:** Marie Curie Cancer Care
- Aim:** Marie Curie Nurses provide free nursing care to cancer patients and those with other terminal illnesses in their own homes.
- Bursary amount:** £1,000
- Spend:** The aim of the bursary was to provide an additional 50 hours of nursing care in the North East of Scotland.

In March, 37 patients were cared for and 1012 hours of nursing care was provided for, of which, 50 of these hours were paid for by the bursary. One family whose relative was cared for in March sent a letter of praise to the charity describing their experience.
